

## Learn How to Get Online Access to Your Field Data 24/7!

MONTICELLO, IA – Innovative Ag Services is excited to announce a new online service for our Innovative Advanced Solutions customers. The new SIRRUS Viewer from SST software allows all of our Innovative Advanced Solutions customers to gain online access to their field data 24 hours a day, 7 days a week, from anywhere!

With the new SIRRUS viewer, you will have access to all the spatial data that has been collected from your fields such as soil sample results, fertility recommendations and yields maps. You will also have access to live weather data. This is just one more way Innovative Advanced Solutions can help you make important decisions regarding your crop!

To sign up for this FREE service, just email Jeff McDowell at [jeff.mcdowell@ias.coop](mailto:jeff.mcdowell@ias.coop) or Dennis Gogerty at [denny.gogerty@ias.coop](mailto:denny.gogerty@ias.coop). In your email, please include your preferred email address and contact information.

Once you are signed up, you can login by going to <http://www.sstsirrus.com>.
