

Kirkwood Students learn Safety “Hands On”

Central City, IA-On March 11th, 2014 Innovative Ag Services had the pleasure of having a group of students from Kirkwood Community College come to tour the facility and learn about safety on the job.

Tours were led by Joel Diesing-Central City Location Manager, Jon Zieser-West Central Regional Operations Manager, Thatcher Block-Director of Safety and Compliance, and Chris Shadden-East Central Regional Operations Manager.

The students got to see and put on the safety equipment that is used by IAS employees on a daily basis. The students learned the correct way to put on a harness, how to wear safety glasses, which gloves to use for different job tasks, when to wear a hard hat, as well as, the Lockout/Tagout procedure.

During the tour of the facility the students were shown an air flow applicator, grain bins, how to operate lags and conveyors of the grain bin, how to fill an anhydrous tank and the chemical shed.

This tour was a great opportunity for IAS to support the community and to educate others on safety. If you or someone you know would like to set up a tour, please contact Craig Schroeder at 319-465-2022 Ext: 128, Renee Dubberke at 641-864-2561 Ext: 20 or your nearest Location Manager.
